

MAHARAJA RANJIT SINGH AFPI

DATES FOR COMPLETION OF MEDICAL OF SELECTED CANDIDATES

1. Interviews of candidates is currently in progress. As on 15 April we have completed interviews of Six batches. Remaining four batches of approx. 15 candidates per batch will be interviewed on 19 and 22 April.
2. We were earlier planning on commencing the Eleventh Course in first week of Jul as the Board exams were to be held in May / June. Now the school has informed us that in view of the cancellation of Class 10 Board exams they would like to commence the new session much earlier. Date of commencement of 11th Course will therefore be finalized in consultation with the school and the session will commence earlier, possibly in May.
3. In view of the above, it is necessary to complete the medicals and re medicals of affected candidates in an earlier time frame. Therefore the following amendments are to be done to the schedule planned earlier: -
 - (a) Candidates from Batches 1 to 4 were earlier told to complete their re medicals by 11 June. They will now get their re medicals done within four weeks from the date of first medical. Last date for Batches 1 to 4 will be 07 May.
 - (b) Batches 5 to 10 will complete their re medicals within four weeks of first medical.
 - (c) No action needs to be taken by candidates who have already been declared medically fit.
4. Candidates coming for re medical should only come on a working day and should inform us in advance so that the medical documents are kept ready by us.
